organize

The 4th Workshop on Innovative Techniques, Diversity and Connectivity (WITDC-21)
Bucharest, Romania on November 25-26, 2021.

Conference venue: online (via Microsoft Teams platform)

The overall aim of the workshop is to promote networking among people and projects dealing with innovation and adoption of new technologies, find common issues, explore possibilities for collaboration and knowledge exchange related to interdisciplinary sciences, *Mathematics and Statistics, Physics, Engineering, Economics, Education and Health Sciences, Security Technologies, Information Security Management, etc.*

Researchers from universities, health and technology organizations, bachelor's, master's, and doctoral students, representatives of enterprises and IT companies, and anyone who may be involved in relevant projects or has experience with engaging in, designing, and/or implementing innovative solutions and adoption of new practices and technologies in *interdisciplinary sciences* are invited to apply. We would like to hear about your projects and experiences.

The specific objectives of the workshop are:

- identifying common challenges
- exploring potential solutions to shared challenges
- exchanging good practices
- connecting participating projects
- promoting further cooperation between partners from different projects
- others

WITDC-21 is a satellite event of the The 14th International Conference on Security for Information Technology and Communications (SECITC 2021), <http://secitc.eu/>
Paper submission and refereeing for **WITDC -21** will take place via EasyChair:
<https://easychair.org/conferences/?conf=witdc21> until **November 21**.

Chairs: Simona Mihaela Bibic, Elena Corina Cipu, Mihai Rebenciuc
